THE PROBLEM

Digital platforms grow fast, but creators face high fees, low earnings, and lack of ownership.

 High platform fees

 Low visibility due to algorithm bias

 Limited monetization options for creators

 Payments are slow, fragmented & costly

 Multiple platforms, no real connection

 Lower fees for higher earnings

 Secure & fast payments

 More income opportunities

 Real utility for creators

 One ecosystem, strong connection

VS

HIGH CREATOR FEES

Platforms take large cuts, leaving creators with less.

LIMITED MONETIZATION

Few options to earn beyond ads and sponsorships.

FRAGMENTED PAYMENTS

Slow, costly, and unreliable payment systems.

DISCONNECTED PLATFORMS

Platforms don't connect or share real value.

NO REAL UTILITY TOKEN

Lack of real utility tokens that empower creators.

CHALLENGES FACING THE DIGITAL ECONOMY

VALUE EXTRACTION

Centralized platforms take fees without giving back.

CREATOR BURNOUT

Low earnings and high competition lead to burnout.

GLOBAL INEQUALITY

Creators from some regions face limited opportunities.

LACK OF OWNERSHIP

No ownership of data, content, or communities.

SUSTAINABILITY GAP

Current models aren't built for long-term growth.

It's time for a fair, transparent, and creator-first ecosystem.
Livon Token is built for the future.
